Over the 2 decades experience, we build up a professional team, includes the tooling and engineering department, the casting department, the punching department, the welding department, the polishing department, the packing department, the warehouse department, etc.

Product Description

Products Introduction

Outdoor stainless steel candle lantern with glass are made of stainless steel and tempered glass. For the stainless steel, we use SS430 which is around 0.7mm thickness to make it. For some components we will use different thickness of the stainless steel because of the construction requirement. For the glass, we use the tempered glass, which is around 2.6mm thickness. And for the round glass tube, we use 2.5mm borosilicate glass tube. Product surface treatment can be made in different colors according to customer requirements. And the metal lantern has different sizes for your to choose. Our metal lanterns let the flicker of candlelight take center stage. Solid sheet metal frames feature broad panels of clear glass. Fitted with handles, the lanterns can be easily transported to cast a warm glow where needed.
